---

We support any and all continued restrictions of water usage and the implementation of a water district.

Just Saturday, we witnessed several local vineyards irrigating huge areas with overhead spraying.

Today, we drove by so many new plantings of grapes, it was staggering (and shocking.)

It is obvious that many property owners will not voluntarily comply with water cutbacks and will, in time, jeopardize all of our water supplies.

We have a small vineyard and about 70 fruit trees. We are voluntarily severely cutting back on

the amount of water we are using. We wish we could say the same for all of our neighbors.

Something must be done. It is totally out of control in this county.

As elected officials, we hope you will realize the severity of the problem and the harm that may

occur should nothing be done.

Thank you for your time.

Robert and Roxanne Camron
